- 02 DESIGN BRIEF
- 03 SITEMAP
- 04 MOCKUP DESIGNS
- 05 FEATURES
- 06 REFLECTION

## DESIGN BRIEF

### **Brief**

Create a portfolio website that presents me as a developer and IT Professional.

### **High Level Requirements**

- Design/Develop/Deploy a website
- Includes HTML/CSS
- Powerpoint/ Video presentation

## TARGET AUDIENCE

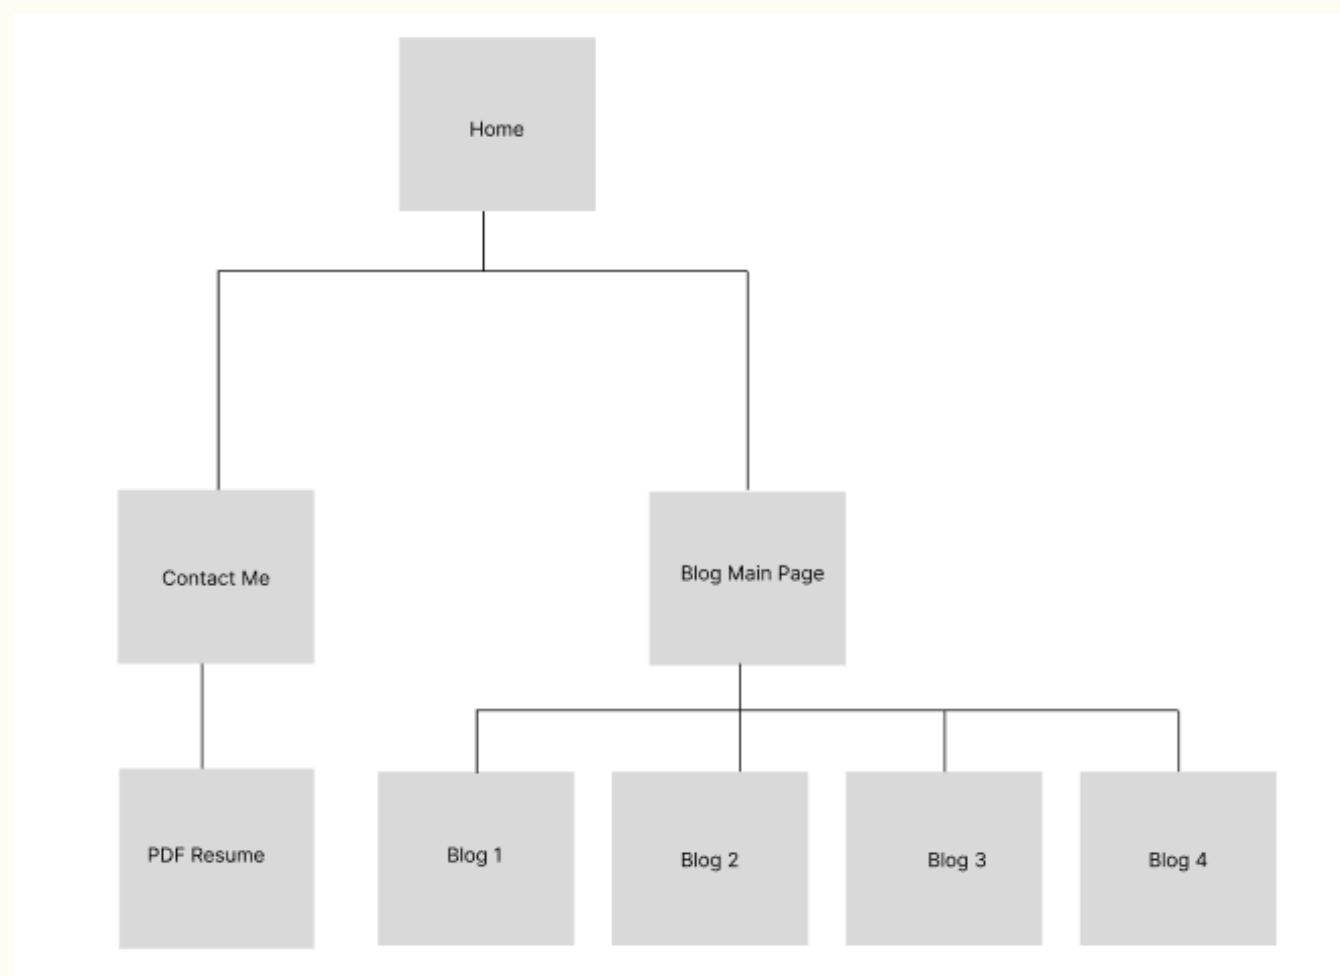

**Target Audience** is for a potential employer who has the following expectations:

- Technical knowledge
- Software development
- Programming Languages
- Development Stack knowledge
- High expectations of professionalism and positive work ethic

**DUE: 28 AUG 22**

# OUR VISION

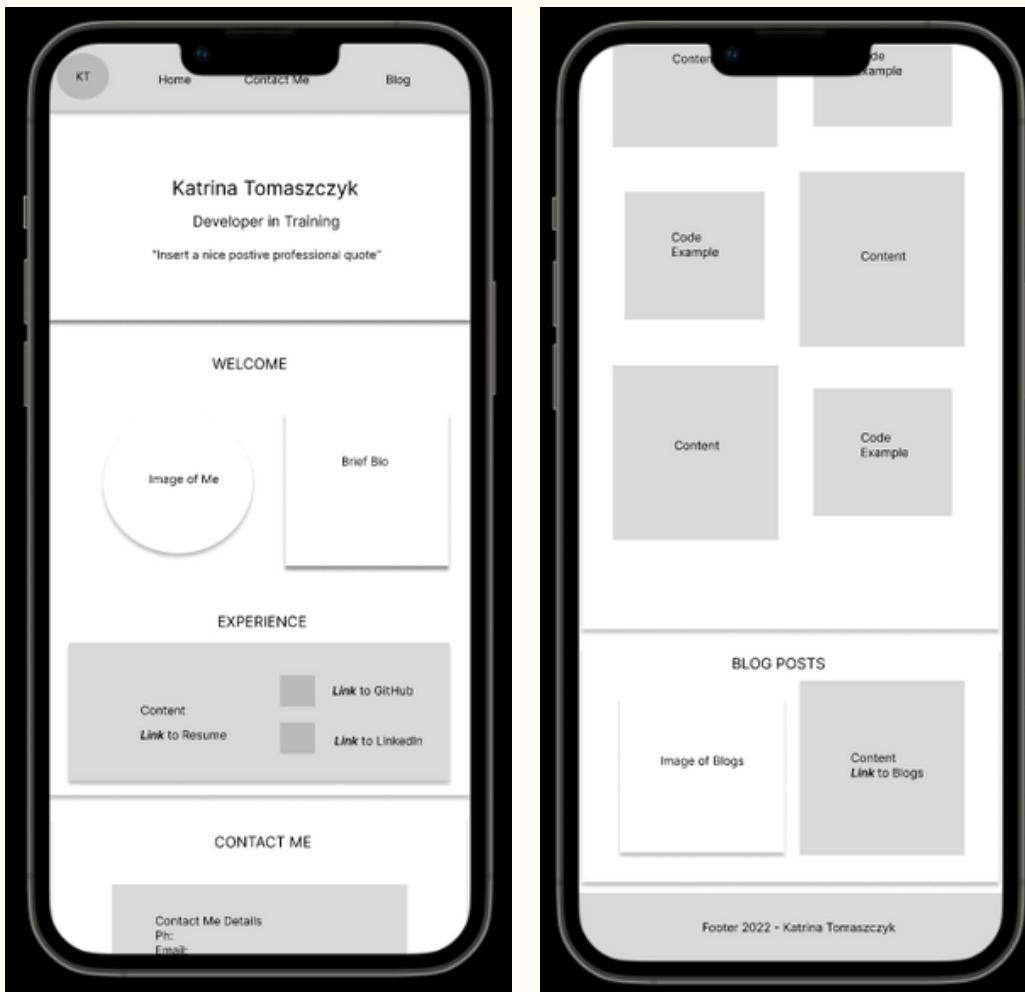

## Thought Process: Notes/ SiteMap

- Aim is to contact the IT professional - Contact Me
- Easy to navigate
- Scrollable
- Content is clearly visible on smaller devices
- Mobile Web first approach
- Easy to find main content
- Easily able to add in more blogs

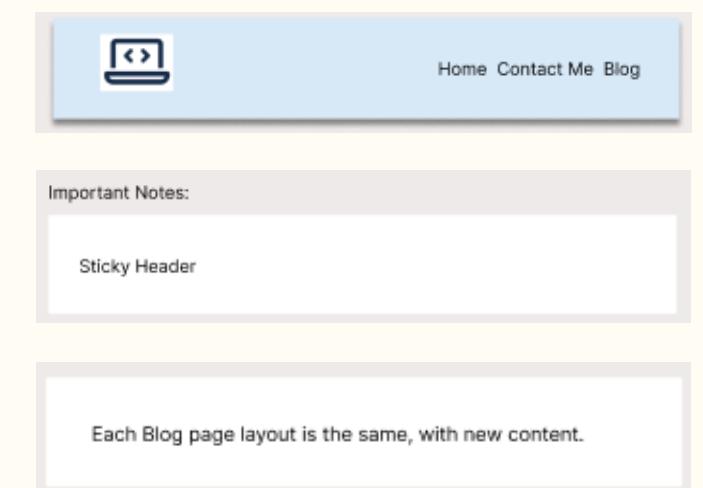

# MOCK UP\_ LOW FI DESIGNS

## LAYOUT

## COMPONENTS

## NOTES

Design was an iterative process.

Styling was re-used across pages to keep consistency.

Theme/Design aimed for minimalist, clean and professional.

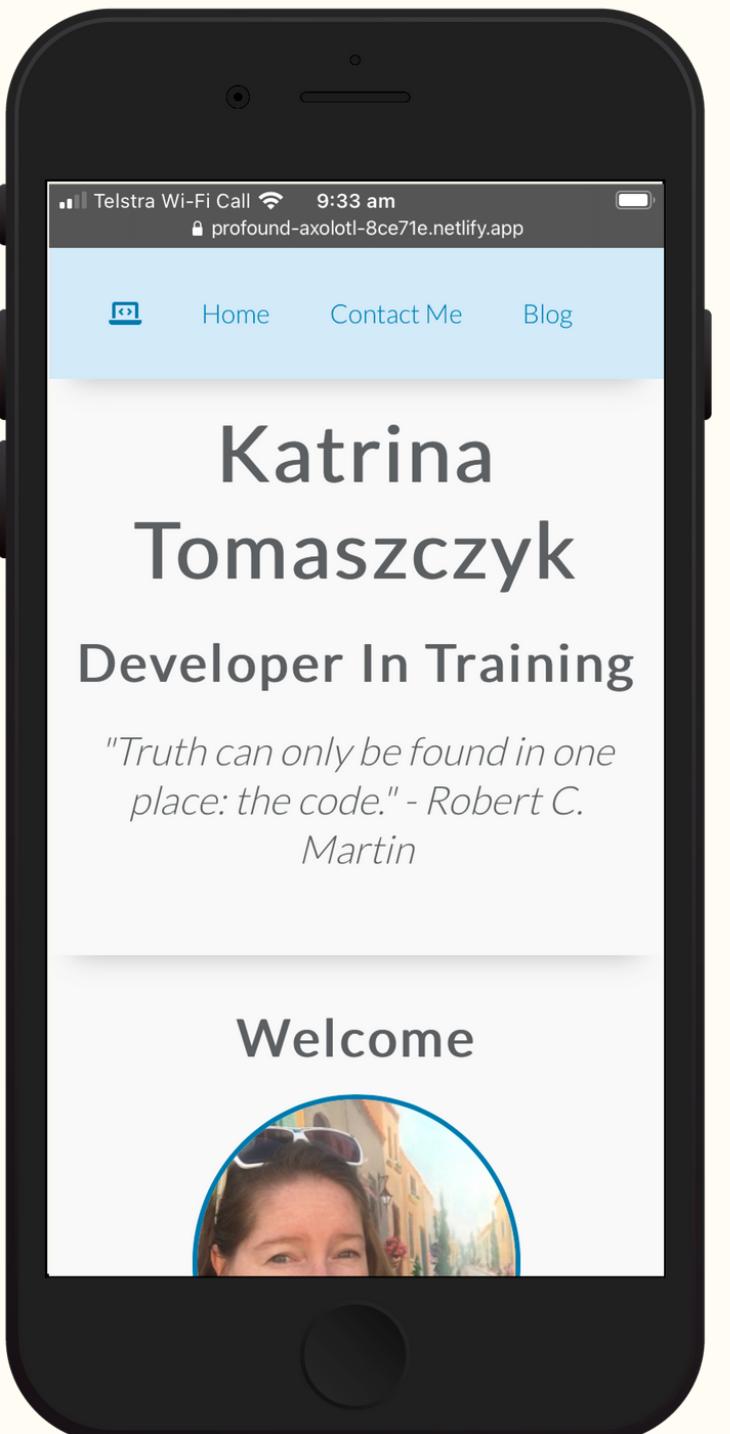

# FEATURES

## FUNCTIONALITY

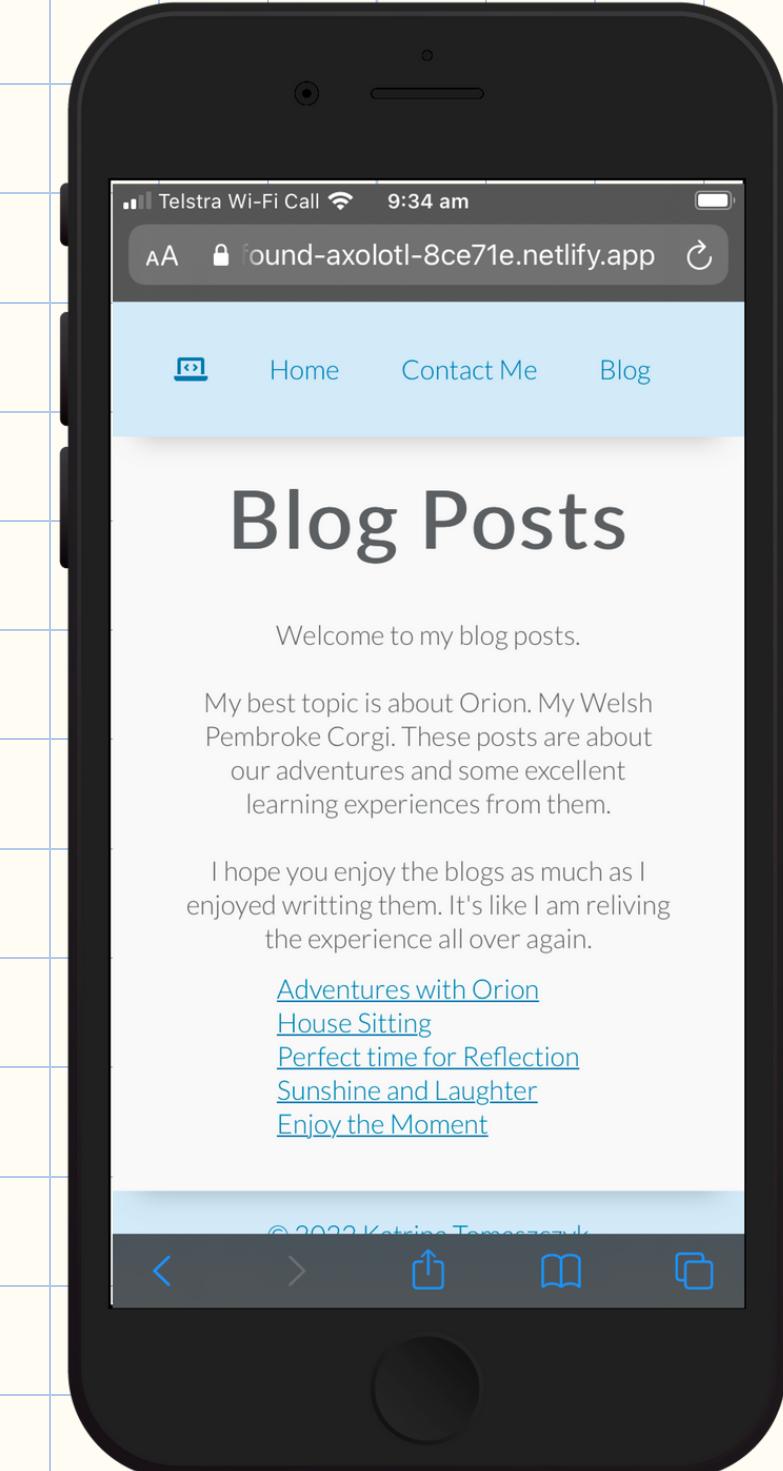

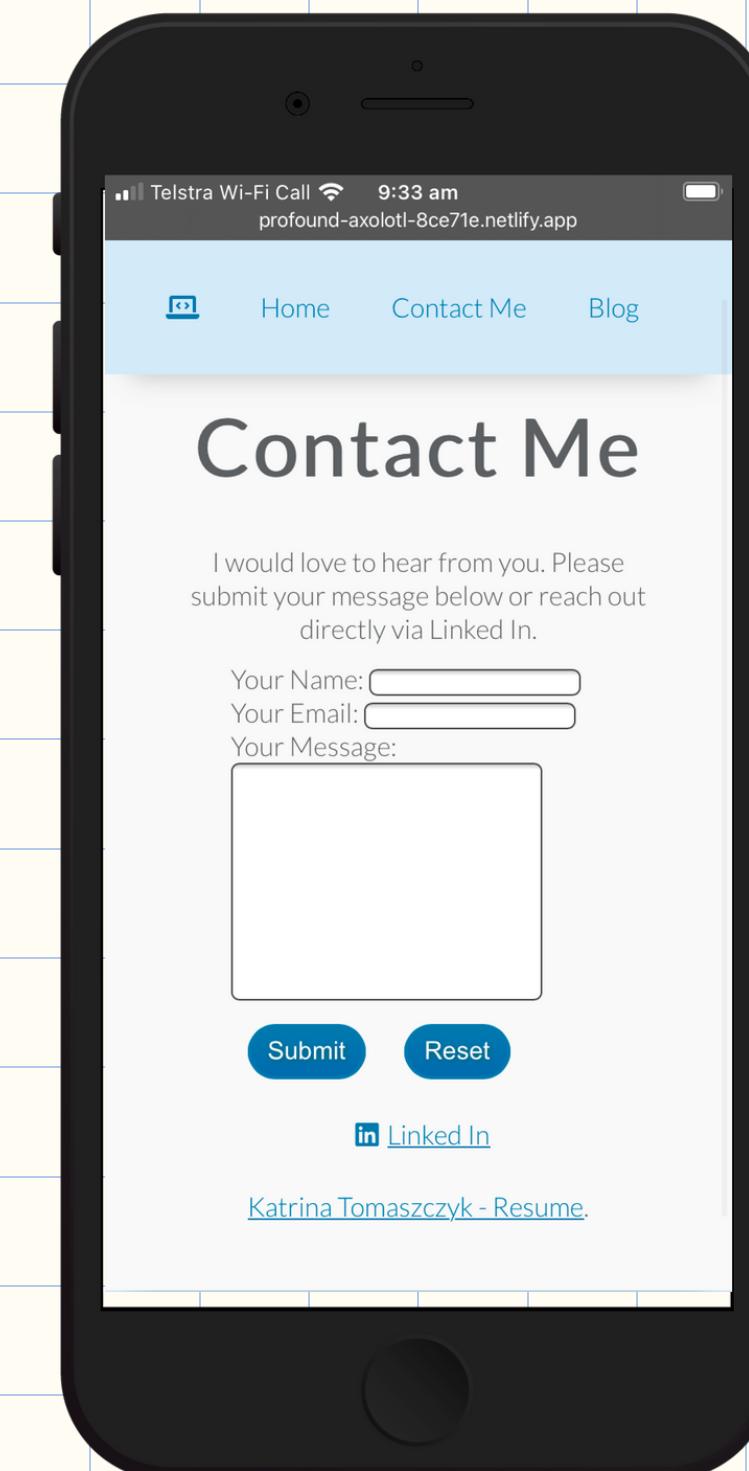

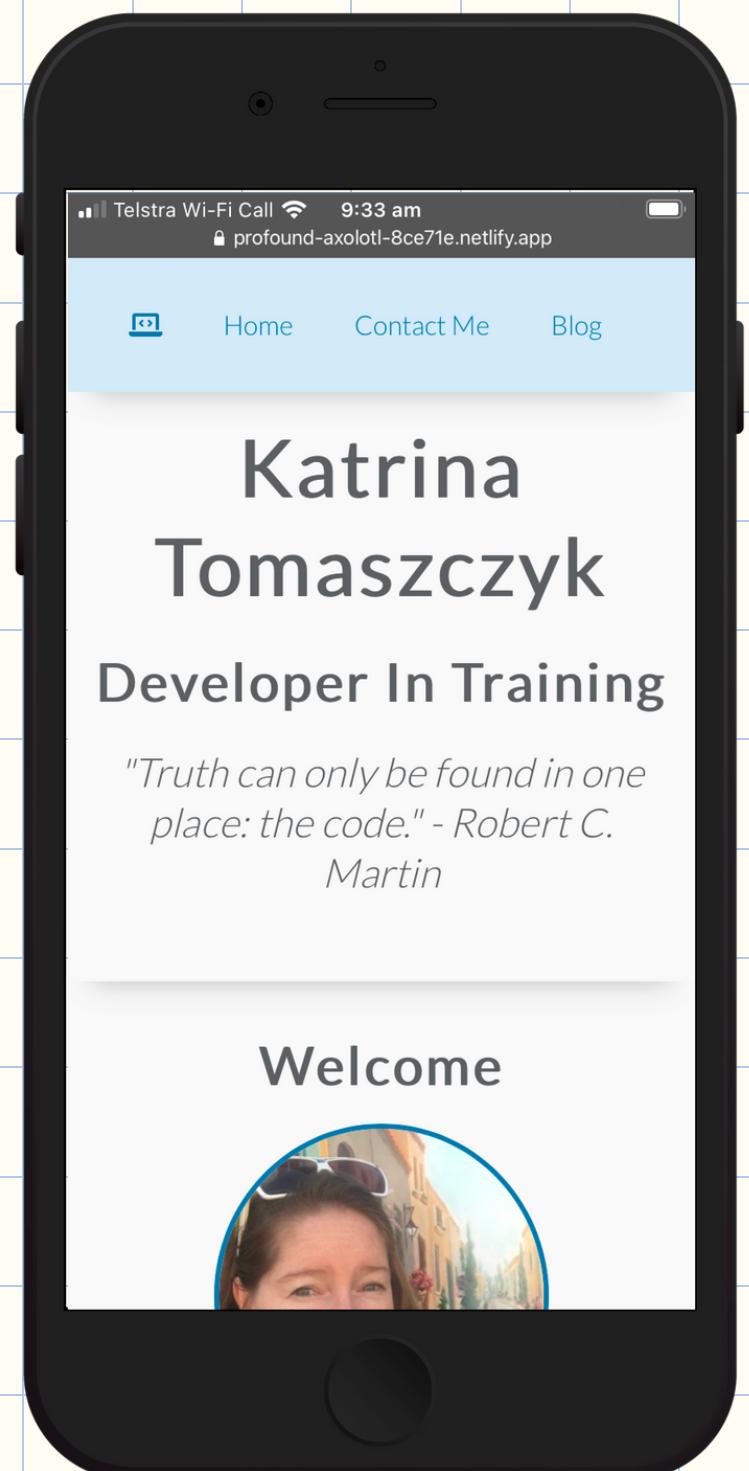

- Clearly highlight the IT professional
- Online portfolio available
- Information on the individual
- Showcases work through Git Hub
- Present previous experience through LinkedIn and Resume
- Website Designed/Developed/Released

## ONLINE PORTFOLIO

<https://profound-axolotl-8ce71e.netlify.app/index.html>

# PORTFOLIO

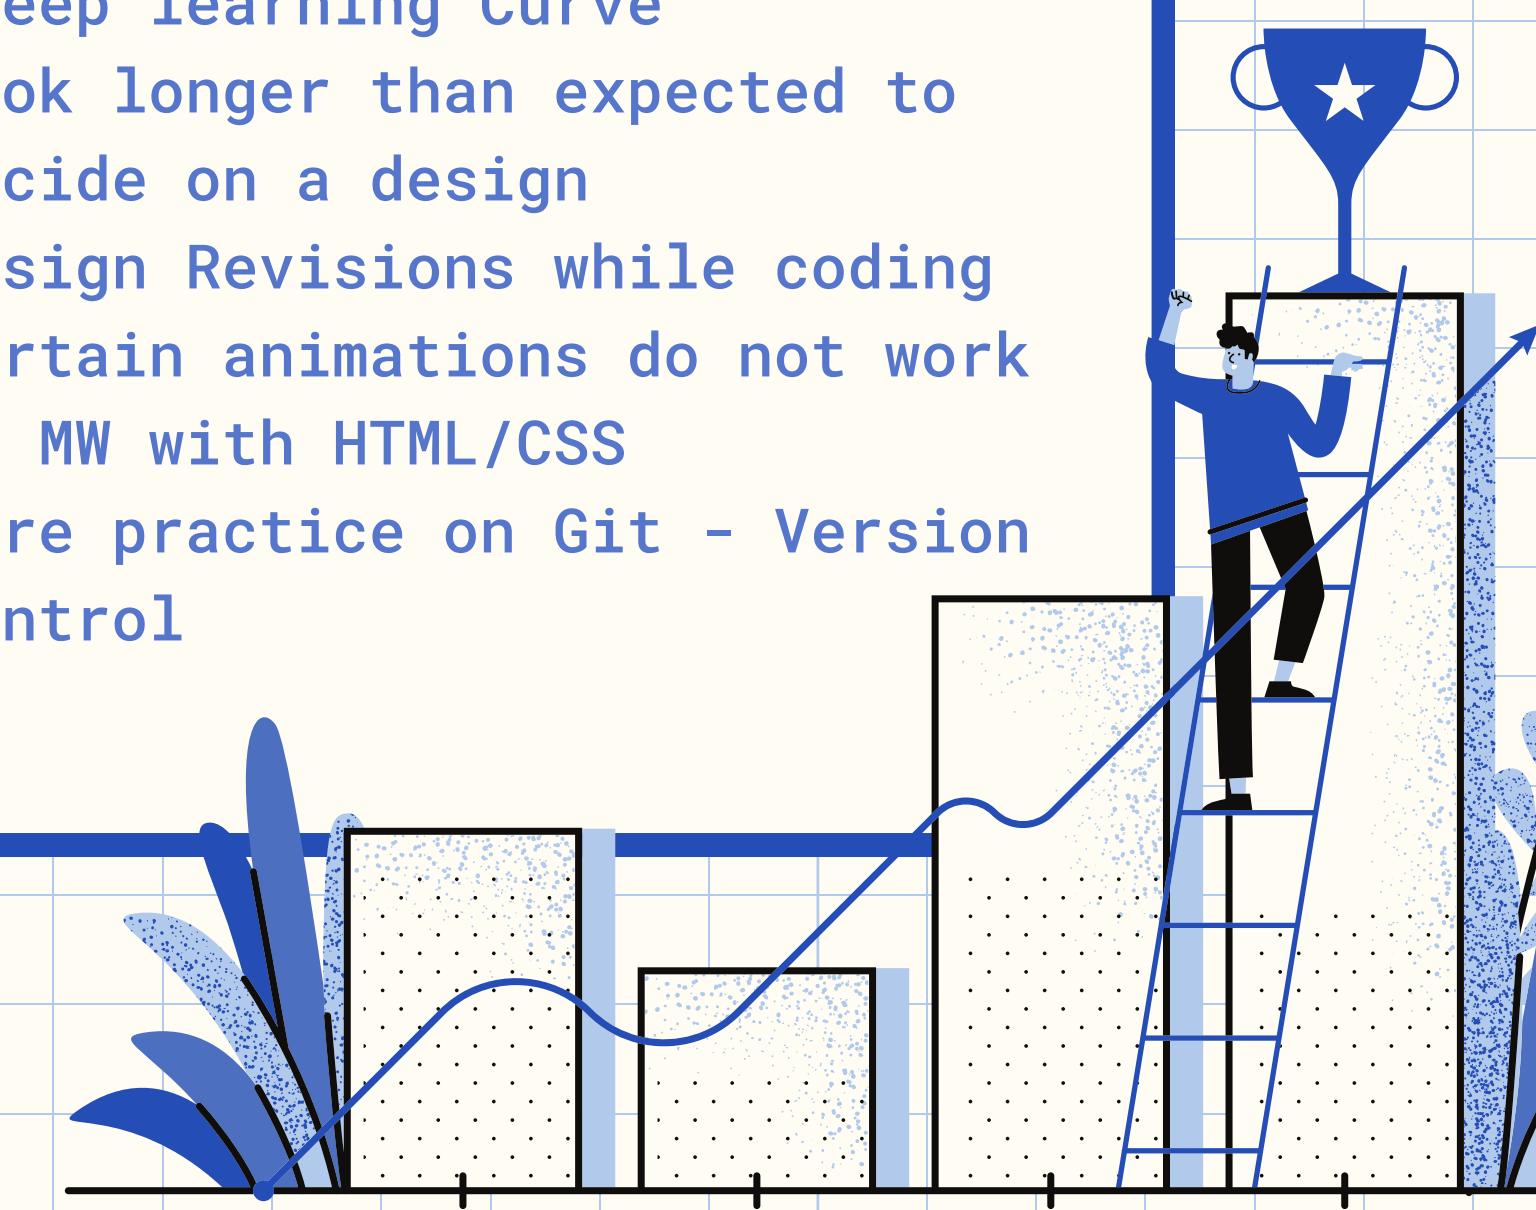

# LEARNING OPPORTUNITIES

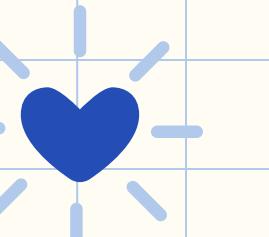

## WORKED WELL

- HTML/ CSS - Learning resources available
- Flexbox CSS Layout
- Responsive Design
- Wireframe/ Opportunity Assessment and Low-Fi Designs
- Practicing Animations
- Testing on Mobile Devices/ Different Browsers

## OPPORTUNITIES

- New experience with Figma - Steep learning Curve
- Took longer than expected to decide on a design
- Design Revisions while coding
- Certain animations do not work on MW with HTML/CSS
- More practice on Git - Version Control

**THANK YOU**
